Portfolio: sahil-portfolio-q8j1.onrender.com | LinkedIn: linkedin.com/in/sahil-arya-278ab524a

Professional Summary

Creative UI/UX Designer with 1 year of experience crafting intuitive web and mobile interfaces using Figma and Framer. Skilled in wireframing, interactive prototyping, user research, and building scalable design systems. Proven ability to align user-centered design solutions with business objectives while collaborating in cross-functional team environments.

Skills & Competencies

Design Tools:	Figma, Framer
UI/UX Design:	Wireframing, High-Fidelity Prototyping, Design Systems, Information Architecture, Responsive Design, Typography, Visual Design
User Research:	UX Research, Usability Testing, Design Thinking
Core Basics:	HTML Basics, AI Fundamentals, Project Management

Professional Experience

TechCadd Virtual Academy Mohali, India

Junior UI/UX Designer & Tutor Dec 2025 – Present

- Design user-centric web/mobile interfaces, structural wireframes, and high-fidelity interactive prototypes.
- Instruct students in UI/UX design fundamentals and provide direct mentorship on portfolio creation.

Viziane Remote- UX/UI Designer Sep 2025 – Present

- Lead end-to-end product design cycles from conceptual wireframes to interactive high-fidelity prototypes.
- Manage design timelines and collaborate with remote engineering teams to ensure accurate feature implementation.

Freelance Remote- Freelance UI/UX Designer Jun 2025 – Present

- Architect tailored web and mobile UI layouts for startups, optimizing workflows and digital user engagement.
- Conduct rapid prototyping and design iterations based on direct client requirements and user feedback.

Vybe Labs Remote- UI/UX Designer Jun 2025 – Dec 2025

- Designed conversion-focused mobile interfaces, utilizing interactive product prototypes to drive user retention.
- Built and maintained comprehensive design systems with reusable components to ensure cross-platform consistency.

Key Projects

Virtual Academy – Online Learning Platform

Designed a complete web and mobile UI layout, establishing a unified design system and intuitive course navigation flows.

Odd Drop & Void – E-commerce Platforms

Created distinct online retail interfaces: an editorial-focused UI for a women's fashion platform and a bold, dark-themed streetwear UI for a men's clothing brand.

BrewNest – Coffee Ordering Application

Developed a clean mobile application interface featuring streamlined user flows for menu browsing, cart checkout, and loyalty tracking.

Education

Indo Global Engineering College New Chandigarh, India

B.Tech in Computer Science (Expected Graduation) Jun 2026

Govt. Polytechnic Panchkula, India

Diploma in Electrical, Electronics and Communications Engineering Jul 2022
